

NOJAID ABDULLAH

Software Engineer | Flutter & Laravel Developer

Tripoli, Libya • +218 93 425 2735 • nojaidnojaid@gmail.com • github.com/nojaid-ad

PROFESSIONAL SUMMARY

2026 graduate in Information Technology / Software Engineering with 2+ years of hands-on Flutter development experience and practical Laravel, PHP, and MySQL backend experience. Skilled in building complete software systems — from REST APIs and databases to responsive mobile interfaces. Seeking a junior software engineering or Flutter developer role.

TECHNICAL SKILLS

Mobile Development: Flutter, Dart, GetX

Backend Development: Laravel, PHP, REST APIs

Databases: MySQL, SQLite

Web: HTML, CSS, JavaScript, Laravel Blade

Tools: Git, GitHub, Postman

SELECTED PROJECTS

Libyan Smart Meter Platform — Graduation Project | 2026

Flutter · Laravel · MySQL · REST APIs · ESP32

- Designed and developed a full-stack smart electricity management platform, integrating a Flutter mobile application, Laravel REST API backend, and MySQL database.
- Integrated ESP32 microcontrollers and sensors to collect electricity consumption data and transmit measurements to the backend through REST APIs.
- Implemented authentication, role-based access, notifications, and payment integration; developed an administration dashboard using Laravel Blade.

Taskly — Task Management App (Flutter, GetX, SQLite) — Developed a CRUD-based task management application using GetX for state management and SQLite for local data persistence.

Notes App (Flutter, GetX, SQLite) — Developed a notes application with local data persistence using SQLite.

Telegram Bot for College (Telegram Bot API) — Developed a Telegram bot integrating the Telegram Bot API for college-related functionality.

Calorie Calculator (Flutter, GetX, SQLite) — Developed a modern offline calorie tracking app with clean UI/UX, personalized nutrition tracking, meal management, and Arabic/English localization.

EDUCATION

Bachelor's Degree — Information Technology (Software Engineering) | Technical College | Graduated 2026 | GPA: 81%

ADDITIONAL SKILLS

- Academic and technical research paper writing and formatting.
- Proficient in Microsoft Word and PowerPoint for professional documentation and presentations.
